Program

Dr. Stephen Jacquemin from WSULC gave an update on the status of Grand Lake water quality. He stressed that understanding the problem is not difficult. The problem is that there are too many

dangerous toxins a because of too much by too many nutrient into the lake. N phosphorus levels are Jacquemin provided of the lake, noting t problems began to through the algae blo everyone aware that serious.

Conservation practice years ago. Through co and solution strate began. There's a long remarkable progres made. Restoration o our area is impress become a model for state and across the Jacquemin advised improvements need t restoring additional restoring natural h continuing to monit quality.
